Skills

Front End: HTML5 • CSS3 • JavaScript/jQuery • AngularJS • React • Bootstrap • SASS
Back End: Node.js • MongoDB • PostgreSQL
Tools: Git • Heroku • Pixelmator • Sketch • Adobe Photoshop & Premiere

Experience

MacMillan Learning [10/2016 - Present]

Front End Engineer

- Build web applications using React.js, Backbone.js, Node.js, and pure JavaScript with a focus on responsive design and accessibility.

Kaplan Test Prep [3/2016 - 10/2016]

Front End Developer

- Build campaign landing pages with the focus on increasing website conversion.
- Integrate pages with third party systems and APIs.
- Manage and edit content of e-commerce website using internal CMS.
- Refactored files and code to improve efficiency in completing tasks.
- Implement and update best practices and SEO standards for site's legacy code.
- Collaborate with agile technical teams on functional projects and set expectations with senior management.

General Assembly [11/2015 - 2/2016]

Web Development Immersive

- Developed web applications using front-end and back-end technologies.
- Recipient of the Opportunity Fund Fellowship.
- Projects:
 - **Shaky Shack** (HTML, CSS, JavaScript/jQuery, Pixelmator, Ruby on Rails, PostgreSQL)
 - A POS web application with a built-in menu template.
 - Add employees, create orders/food items, display meal preparation details.
 - **Project Hearsay** (HTML, CSS, JavaScript/jQuery, Pixelmator, Node.js, MongoDB)
 - A social web application where users can anonymously post secrets.
 - Users can only update and delete their own posts.
 - **Battle Maps** (HTML, CSS, JavaScript/jQuery, MongoDB, Node.js, Angular)
 - A turn based battling game using Google Maps API and user authentication.
 - As characters level up, their health, power level, and number of abilities increase.

English Program in Korea [2012 - 2015]

Guest English Teacher

- Developed and implemented English courses to promote classroom engagement and improve English proficiency for 2,000 unique middle school students.

Daejeon Metropolitan Office of Education [2013 - 2015]

Lead Mentor / Volunteer

- Created and led a mentorship program for the Daejeon Metropolitan Office of Education (DMOE) to improve the integration of new English Teachers (GETs) into their new city and work environment.
- Mentored over 100 GETs by creating PDF tutorials for Korean applications, advising them on teaching strategies, and helping them communicate with their Korean co-workers through workshops.
